EDUCATION

Palm Beach Code School   North Palm Beach, FL
                                                                    November 2018
- Learned about various programming languages, frameworks, compilers and libraries. HTML, CSS, PHP, vanilla Javascript and Bootstrap to name a few.
- Created an online portfolio to showcase our understanding of said languages.
- Created a capstone project incorporating the use of all programming languages and concepts taught to us.

Niles West High School   Skokie, IL
                                                                    Class of 2015
- Honors classes as well as AP and college credit courses.
- Graduated with a semester GPA of 4.0 unweighted.
- Participated in volleyball and track and field for all four years.
- Volunteered at the school's Tech Help Desk and troubleshooted fellow student's netbooks and tablets.
